

Forging a partnership between farmers and consumers
• Working together for Ohio's farmers •

Dear Member:

Since 1991, the Ohio Farm Bureau Federation (OFBF) has sponsored a group-rating program for our membership to help reduce the high costs of workers' compensation premiums. Our program is a good fit for everyone, whether a small, entrepreneurial business or international company and it is inclusive of not only the agriculture industry, but manufacturing, construction, transportation, service, and general office. Our group rating program still remains one of the best ways to reduce your bottom line premium expense. In fact your fellow Ohio Farm Bureau Federation members have saved nearly **\$520 million** in workers' compensation premiums over the past 19 years.

As a reminder, **CompManagement, Inc.** assumed responsibility of our program in 2009 and serves as the third party claims/group administrator for OFBF members. Members of our group program have a trusted advisor in both our organizations we take a leading role in advocating positive, constructive, and practical applications to policies set by both the Ohio Legislature and the Ohio Bureau of Workers' Compensation.

We are pleased to inform you that the Ohio Farm Bureau Federation has selected your organization as a potential candidate for our workers' compensation program for the 2011 rate year. We encourage you to explore the possible savings by requesting a free no obligation evaluation from CompManagement for the 2011 group rating program. To do so, simply:

- ✓ Complete the enclosed AC-3 Temporary Authorization to Review Information form
- ✓ Return the AC-3 to CompManagement via fax to (866) 567-9380 or using the enclosed envelope.
You may also complete an evaluation request on-line at www.compmgt.com
- ✓ The deadline to be included in the 2011 evaluation process is **January 28, 2011**.

In addition, if you are not currently eligible for group rating, new BWC alternative rating options are available through the Ohio Farm Bureau Federation for Group Retrospective Rating and Deductible programs that may also assist you in reducing your workers' compensation premium. By completing the AC-3 form, your organization may also be considered for participation in these additional programs.

If you have further questions or would like to request a free analysis by telephone, please contact CompManagement's Customer Support Unit at (800) 825-6755, option 3.

We hope you make the same decision today as over 9,000 other Ohio businesses who have selected the Ohio Farm Bureau over the past 19 years to assist them in reducing their workers' compensation premiums.

Sincerely,

Daniel A Rapp
Sr Director, Business Development
