

# 2010 OFBF Excellence in Crop Advising Award

*(Winner to be nominated for ICCA of the Year Award)*

The Ohio Farm Bureau Federation (OFBF) and the Ohio Certified Crop Adviser (CCA) Program are sponsoring one state award titled “**Excellence in Crop Advising**”. The award program is designed to recognize an individual who is highly motivated, delivers exceptional customer service for farmer clients in nutrient management, soil and water management, integrated pest management and crop production, and has contributed substantially to the exchange of ideas and the transfer of agronomic knowledge within the agricultural industry in Ohio.

## **Purpose**

The purpose of this award is to increase the awareness that both farmers and their service people strive to do their best in making cropping decisions that are economically and environmentally sound. A CCA must meet the standards set by the American Society of Agronomy (ASA) and maintain the certification through continuing education. They also sign a code of ethics pledging to do their best and operate in the best interests of their client. Together, a farmer and a CCA, make a team that is working to manage an economically viable business while practicing responsible stewardship. This is a win/win approach for both farmers and CCAs.

2. Nominees will be evaluated solely on the basis of the information provided in the nomination.
