Life in the Clouds

Have you ever heard about the "Cloud"? Learn how to use some top applications or "apps" that work with your computer, smart phone and tablet that help you and your team be more productive, efficient and organized.

Note: participants should have experience using a computer or smart phone. Rather than a hands on training, this session will be more of a "show and tell" showcasing some of today's most popular apps. *Dan Toland, OFBF*

Creating Opportunities in Farm Bureau

Looking for new opportunities and experiences? Want to find something suited to your tastes? Join us for a fast-paced, highly interactive session where you learn about opportunities in a small group environment with people who share your interests.

Public Speaking

Cat got your tongue? Nervous to speak in front of others? You're not alone. Learn the basics of public speaking in a fast-paced, interactive workshop, and get some tips on taking the butterflies in your stomach and get them to fly in formation.

General Session: The Myths of Politics

Do you ever get frustrated by politics? Feel like it doesn't make sense or like you don't have a say? Join us for a fun, fast-paced and thought-provoking session that helps to uncover the myths of politics and let you know not only how you can be heard, but how you and others can make a difference. *Beth Vanderkooi, OFBF*
