

You are invited to an educational seminar on
Land as Your Legacy

You've put everything you have into your farm – its part of who you are. So, if you want a say in what happens to it after you are gone, then it's important to have a transition plan in place. Without one, state laws will dictate what happens to your farm, which can lead to unnecessary stress, delays and expenses for your family. Steve Hamilton, Don Schreiber and Eric Brown with Nationwide, will walk you through the process of assuring your farms long term success. Don't miss this educational and entertaining look into the estate and succession planning process.
