

GARDEN COVER CROP WORKSHOP

Why should a home gardener use cover crops?

Proper use of cover crops can suppress weeds, add nutrients, conserve water, preserve soil structure, enhance microbial action in the soil, and contribute organic matter and much more. These all will lead to a healthier soil in your garden and increase production in your next growing season.

When: September 10th

Where: Lost Creek Reserve Cabin, 2385 Ohio 41 Troy

Time: 6 p.m

Cost: \$5.00

**RSVP: By Sept. 5th,
335-1471 or 335-7666**
