Reservations requested, not required.

Call 419.445.0723 or 800.783.2873

E-mail: [fhwd@ofbf.org](mailto:fhwd@ofbf.org)

Tony Seegers, OFBF director of State Policy will  
provide the latest information about SB 150.

SB 150 would make the following changes to the Ohio Revised Code:

- Requires a person who applies fertilizer on 50 or more contiguous acres for purposes of agricultural production to obtain a fertilizer applicator certification issued by the Ohio Department of Agriculture;
- Requires the certification education program be generally practical and economically feasible and educates applicants about the 4Rs;
- Allows for a private or commercial pesticide applicator who wants to obtain a fertilizer applicator certification to go through the training when renewing the pesticide license without extra charge;
- Requires records to be maintained by the certified person applying fertilizer.

Please come to listen and discuss your thoughts concerning this legislation aimed at managing farm nutrients as a means of protecting water resources.

**Help the Farm Bureau Team Grow**

**Bring a NEW Farm Bureau Member Prospect  
name and receive a prize.**
