To Register Contact:

Amanda Denes-Diedrick
440-877-0706
Erie@ofbf.org

Join us for a walking tour of nutrient and sediment reducing conservation practices that the Clary Family has installed on their own farm. This tour features the Clary In-Stream Sediment Collector designed by Dwight Clary that collects sediment eroding from the upper watershed.

- Clary In-Stream Sediment Collector
- Cover Crops
- Drainage Management Structures
- Filter Strips/Windbreaks
- Updates on Lake Erie Algal Blooms
- And more!
