With special thanks to:

Dear Parents & Guardians,

We are pleased to offer your child the chance to attend the 2016 Preble County Conservation Day Camp. This BRAND NEW event, sponsored by Preble Soil and Water Conservation District and Preble County Farm Bureau, is designed to get students OUTSIDE and LEARNING about how their daily actions affect water, wildlife, soil, and even the people around us, in a relaxed and entertaining manner.

While at camp, your child will be supervised by a staff of adults and teen counselors. Our many staffers will guide your child through different sessions, as well as maintain a positive learning environment. A first aide attendant will be on hand each day to handle the scrapes and bruises that sometimes come with outdoor playing and learning. Lunches will be provided daily and served to children in a picnic-style manner.

Each day your child will attend five sessions taught by instructors from around the area on a variety of conservation topics. Understanding that learning is meant to be fun, these presenters will use hands-on activities to help your child piece together how conservation fits into our daily lives.
