## WHO SHOULD SOIL TEST

Anyone applying lime and/or fertilizer to gardens, yards, pastures, hay and crop fields, etc

## WHY SHOULD YOU FALL SOIL TEST

According to OSU Extension fall is an ideal time to sample soil for several reasons:

1. Soils often have an ideal moisture range that makes sampling easy
2. It gives producers ample time to apply fertilizer or lime before the next crop
3. It helps ensure spring planting will not be delayed.

Soil testing can save you time and money but also plays an important part in water and environmental quality.
