

Water Quality Tour of Lake Erie

Hosted by Erie County Farm Bureau

Friday, July 19, 2019

Ferry Departs at 10 a.m. Return Ferry at 4 p.m.
Miller Ferry Catawba Dock (5174 East Water St., Port Clinton)
to Put-in-Bay (South Bass Island) then to Stone Laboratory

Join us for a fun-filled, educational day at Stone Laboratory on South Bass Island.

Event registration is required and is
\$30 per Farm Bureau member and
\$40 per Our Ohio supporter.

*(\$60 if not a Farm Bureau member- includes
an Our Ohio supporter enrollment.)*

**RSVP to 440-877-0706 or
erie@ofbf.org by July 12**

Travel by Miller Ferry from Port Clinton to Put-in-Bay's South Bass Island to visit Ohio State University's Stone Laboratory. Guests will learn about water quality and harmful algal bloom issues with Dr. Chris Winslow, director of the Ohio Sea Grant College Program. Visit <http://stonelab.osu.edu> to learn more about this educational facility that is the oldest freshwater biological field station in the United States and the center of Ohio State University's teaching and research on Lake Erie.
