Christmas

## *Hall of Fame*

### **Harold Franklin McClelland**

supported the agricultural community for over 55 years through his work on fixing farm machinery throughout Greene County. He was willing to work nights and weekends to get farm machinery back to work. He was easy to recognize in his Chevy Impala and spent time attending many advanced service trainings in order to best serve the needs of the community. He was a Massey-Ferguson dealer in the Xenia area for many years and a good community leader.
