

H2Ohio

H2Ohio Program Expands to 10 More Counties in the Western Lake Erie Basin

Farmers in 10 additional counties in Northwest Ohio are now eligible for H2Ohio funding to help implement conservation practices. The 10 new counties include Crawford, Erie, Huron, Marion, Ottawa, Richland, Sandusky, Seneca, Shelby, and Wyandot.

Enrollment in the program is happening now! Sign ups are extended until September 15 for Cover Crops and Small Grains. Sign ups are extended to October 15 for VNMPs. Interested farmers should contact their local Soil and Water Conservation District.

H2Ohio is Governor Mike DeWine's initiative to ensure safe and clean water for all Ohioans. It is a comprehensive, data driven approach to improving water quality over the long term by reducing phosphorous runoff, creating wetlands, addressing failing septic systems, and preventing lead contamination.

Contact your local SWCD for more information:
