

# Woodland

## Wednesdays

### Small Woodland Management Virtual Workshop

**Do you own a small acreage of woodland?**

**Do you wonder how you can better care for your forest?**

If you own between 1 and 10 acres of tree-covered land, then you are one of over 6 million landowners in the USA. More than 50% of private forest ownership in Ohio alone is in the hands of small woodland owners like you. All these small pieces of woodland add up to over 1.5 million acres of forest in Ohio. Caring for each small piece, therefore, is important to forest health in the whole.

### The workshop will cover...

-  Defining objectives, options, and priorities
-  How to assess your woodland's health and age
-  Tips for balancing goals and creating a management plan
-  First (or next) steps of management and when to plan for them
-  Resources and available assistance

Please note: To allow for mailing time, only those who register before May 9th will receive a physical copy of the Manual. Those who register later will receive a link to a downloadable PDF instead.

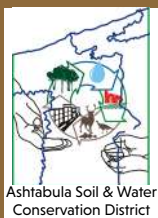

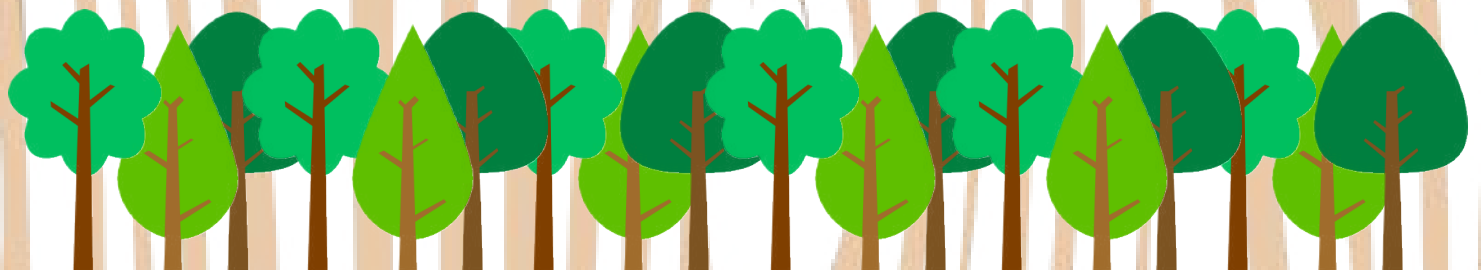

**Wednesday, May 17, 2023  
from 6:30-8:30 pm**

Registration is required for this FREE virtual program and includes a FREE physical copy of the Small Woodland Management Manual to use during our workshop.

To register for this virtual program visit [woodlandwednesdaysmay2023.eventbrite.com](https://www.woodlandwednesdaysmay2023.eventbrite.com)
